PLEASE NOTE: For 2013, we will not be offering standard impatiens in flats due to the widespread European Impatiens Downy Mildew currently affecting this crop in the US.

Some alternatives for shady landscapes include the flats of heavenly Divine New Guineas in addition to our 4 1/2" potted Super Magnum New Guineas. New Guineas are highly resistant to the disease, and these value priced shady garden winners offer a wide color range with exceptional performance in the ground.

Another great low maintenance option for shade is the Begonia with varieties in flats and the spectacular 4 1/2" Dragon Wing variety.

See www.kochgreenhouses.com or call 542-4868 for more details and options.
